

## SOCIAL

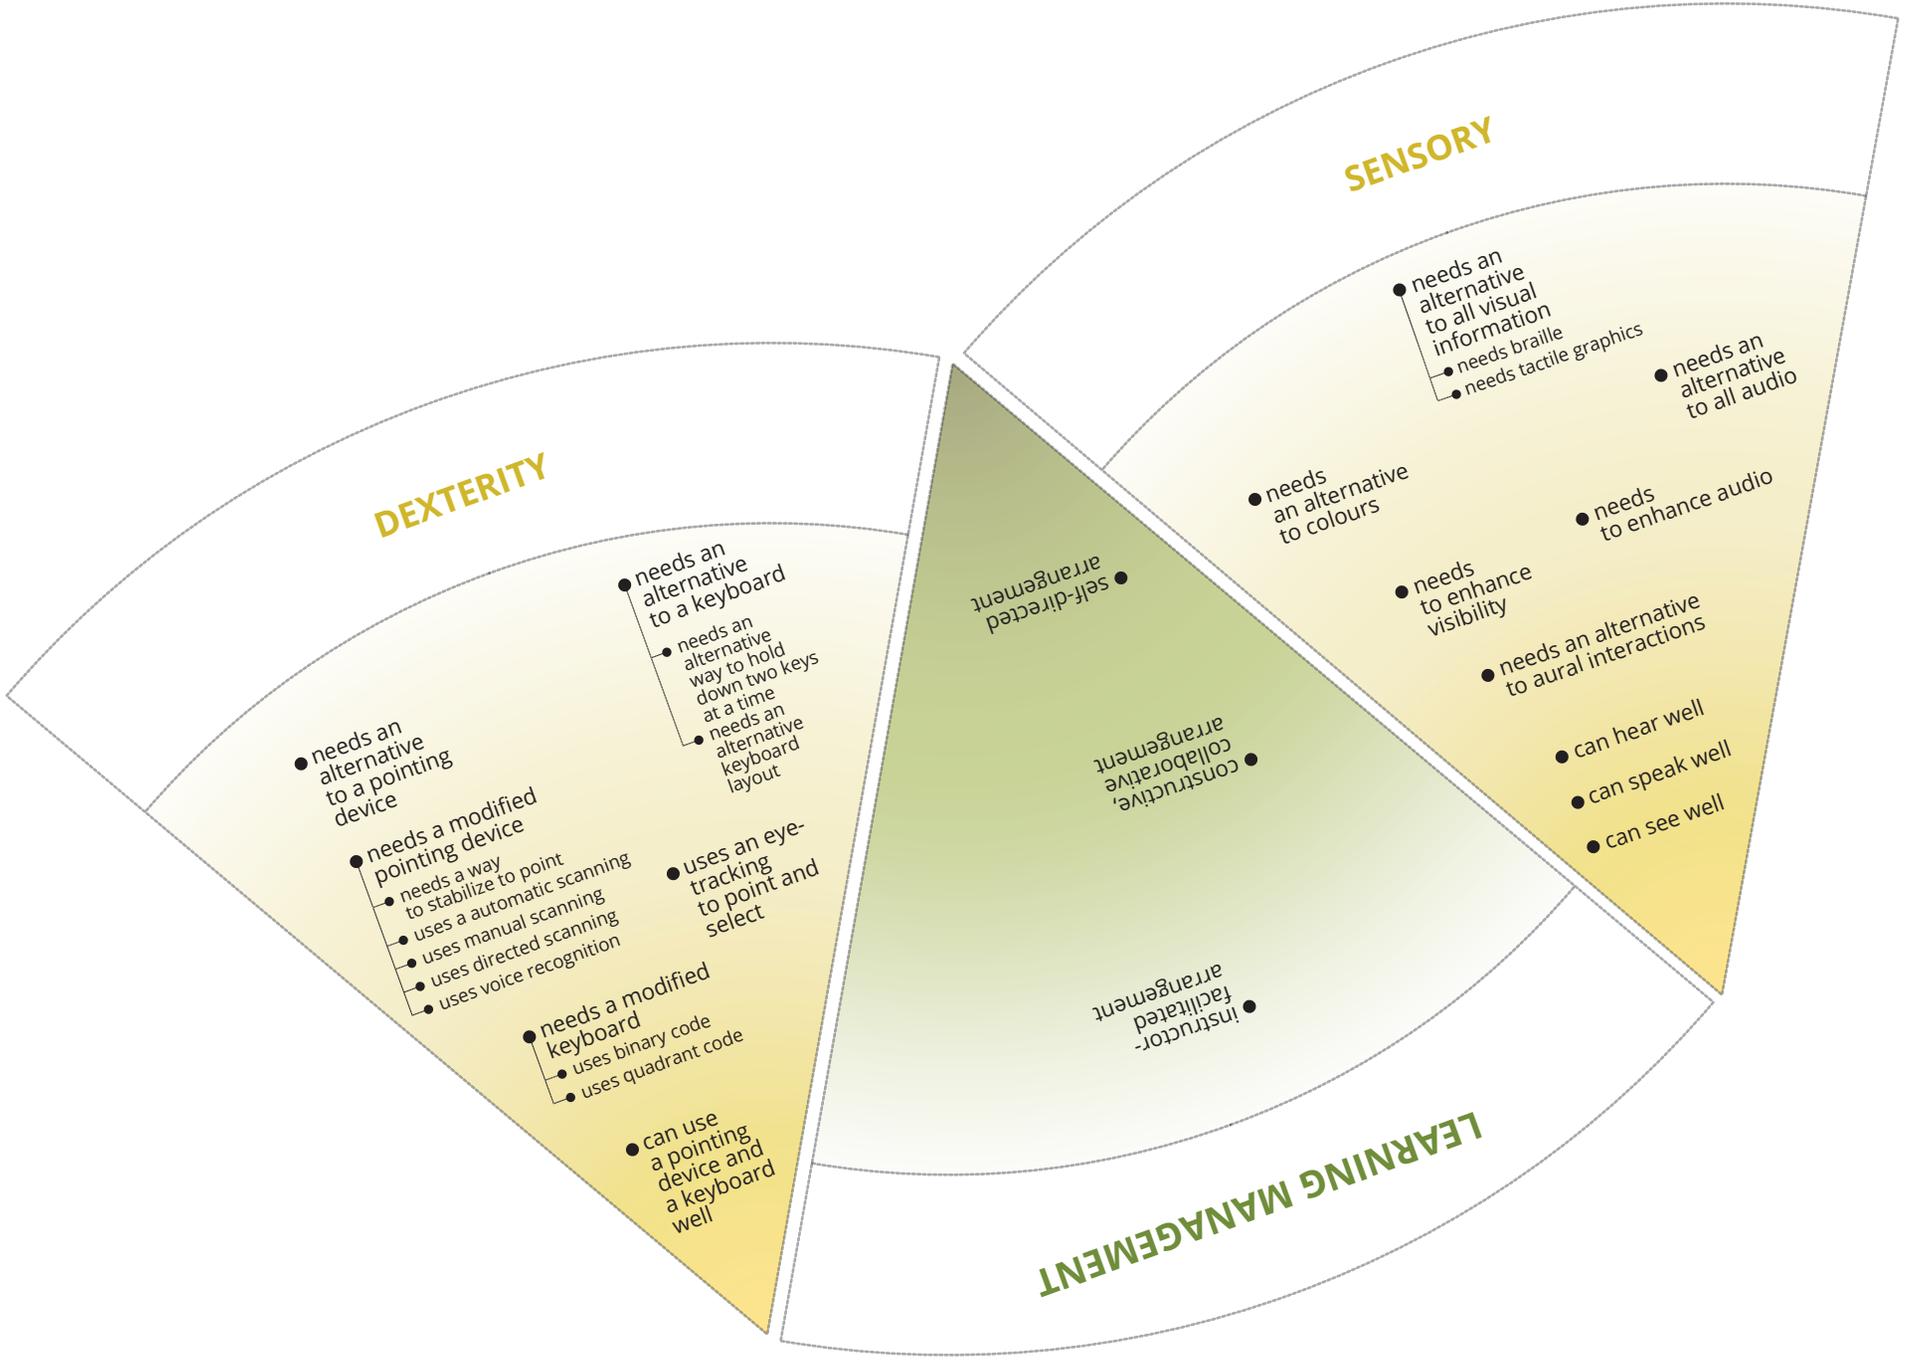

- frequent distractions
- noisy context
- occasional distractions from the physical context
- occasional distractions from email and social networks
- quiet environment
- no distractions

## INTERNET ACCESS

- needs to interact without internet
- has occasional access to low speed internet
- has ready access to low speed internet
- has occasional access to high-speed internet
- has ready access to high-speed internet

## DEVICE PLATFORM

- doesn't have a computer at all
- has no phone
- has a non-smartphone
- has an "antiquated" computer
- has a device with a small display
- has a modern computer
- has a smartphone
- has a device with a large display

## DEXTERITY

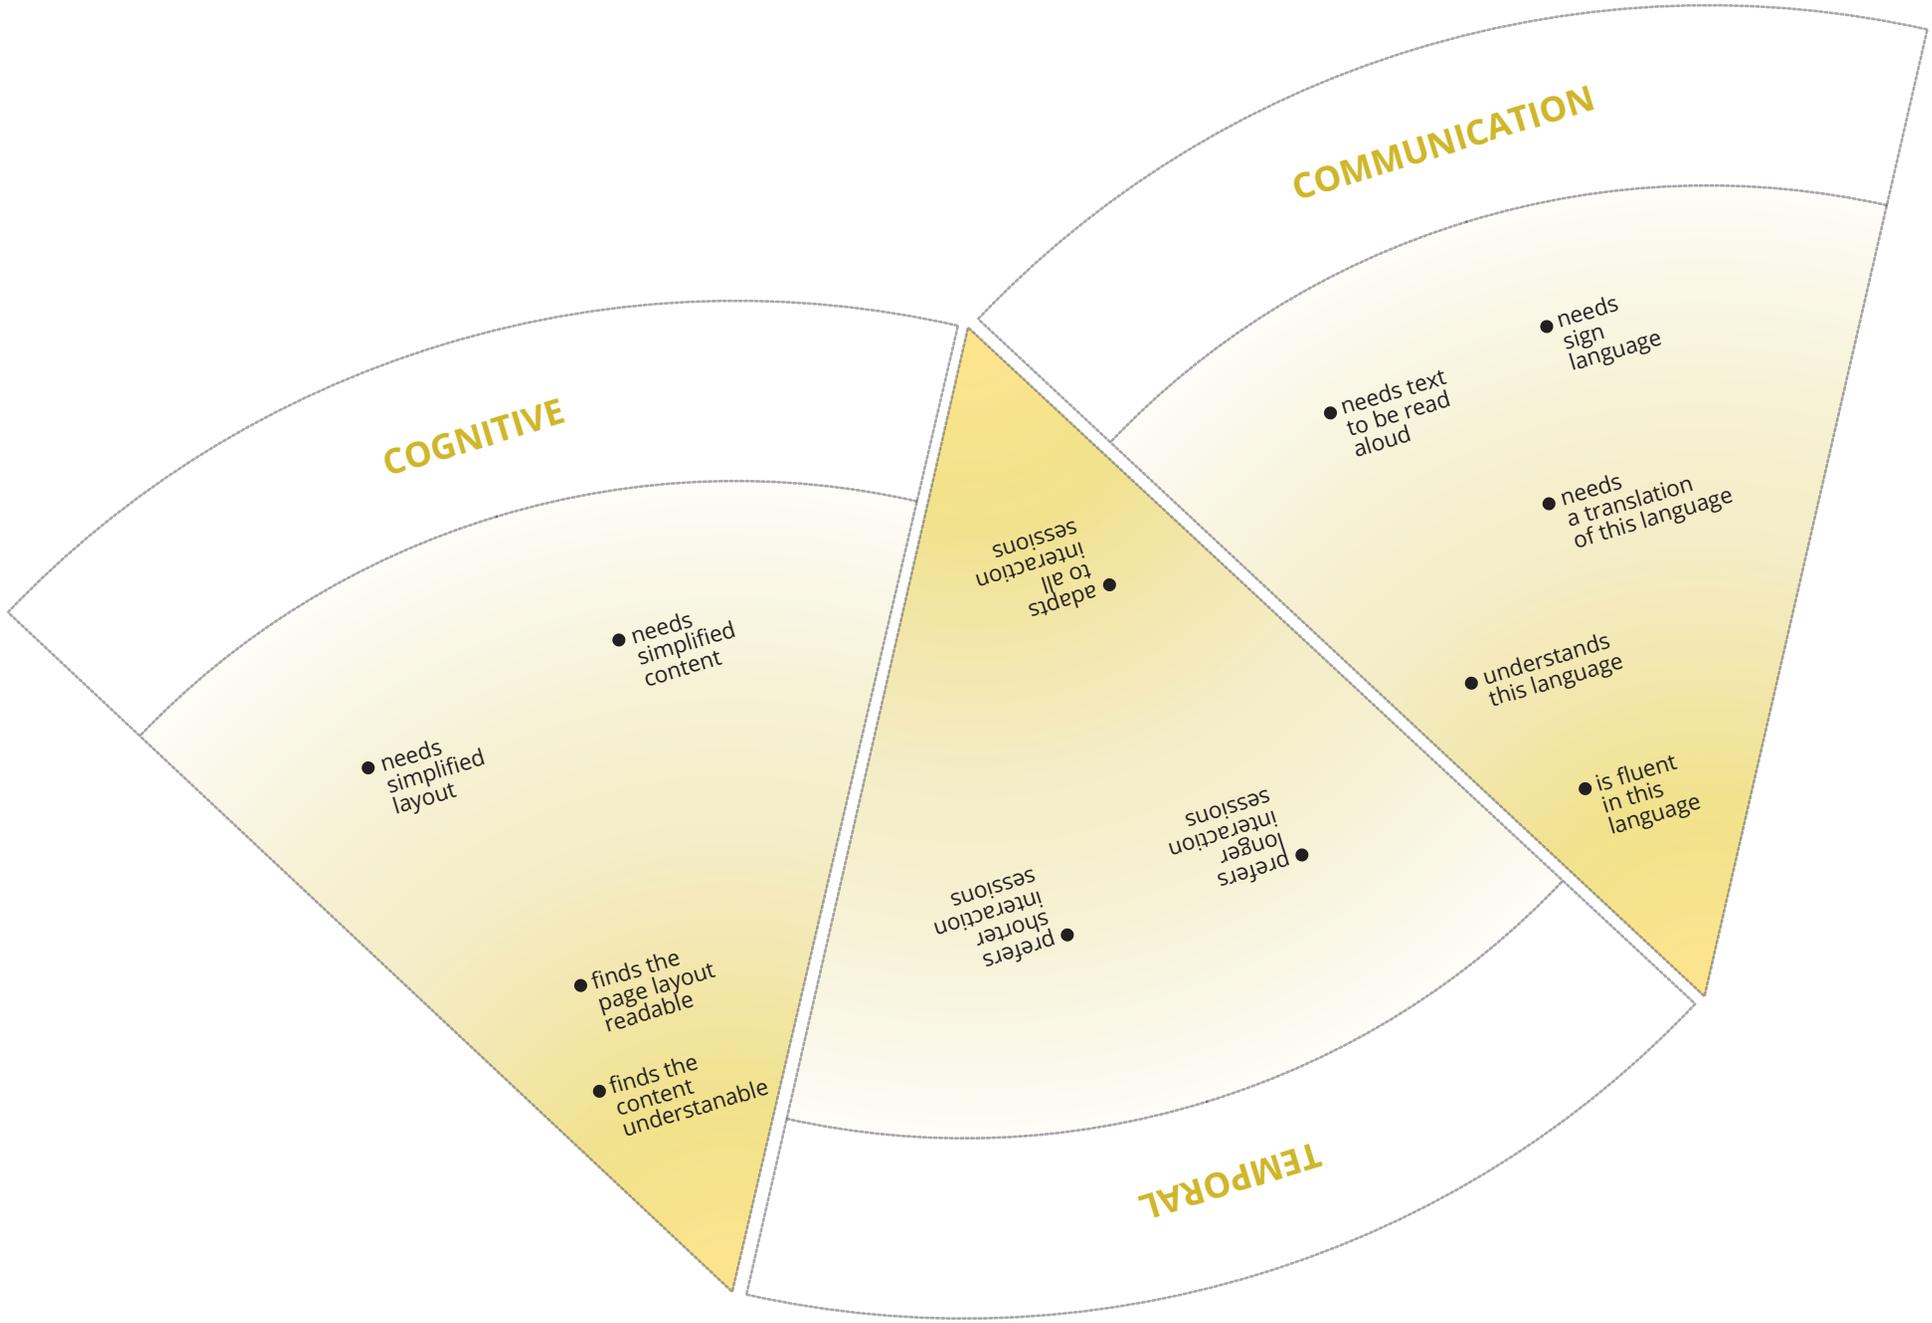

- needs an alternative to a pointing device
- needs a modified pointing device
  - needs a way to stabilize to point
  - uses automatic scanning
  - uses manual scanning
  - uses directed recognition
  - uses voice recognition
- uses an eye-tracking to point and select
- needs an alternative to a keyboard
  - needs an alternative way to hold down two keys at a time
  - needs an alternative keyboard layout
- needs a modified keyboard
  - uses binary code
  - uses quadrant code
- can use a pointing device and a keyboard well

## SENSORY

- needs an alternative to all visual information
  - needs braille
  - needs tactile graphics
- needs an alternative to all audio
- needs an alternative to colours
- needs to enhance visibility
- needs to enhance audio
- needs an alternative to aural interactions
- can hear well
- can speak well
- can see well

## LEARNING MANAGEMENT

- self-directed arrangement
- collaborative arrangement
- instructor-facilitated arrangement

### COGNITIVE

- needs simplified layout
- needs simplified content
- finds the page layout readable
- finds the content understandable

### COMMUNICATION

- needs text to be read aloud
- needs sign language
- needs a translation of this language
- understands this language
- is fluent in this language

### TEMPORAL

- adapts to all interaction sessions
- prefers shorter interaction sessions
- prefers longer interaction sessions

## PERCEPTION

- Prefers auditory
- Prefers visual
- Prefers kinesthetic
- Redundant information

## MATHEMATICAL THINKING

- Number interpretation
- Symbol interpretation
- Supports for mathematical reasoning

## EXECUTIVE FUNCTIONS

- Support in managing stack of goals and subgoals
- Course correction
- Risk evaluation
- Support in carrying out sequence of functions
- Time management tools

## ATTENTION

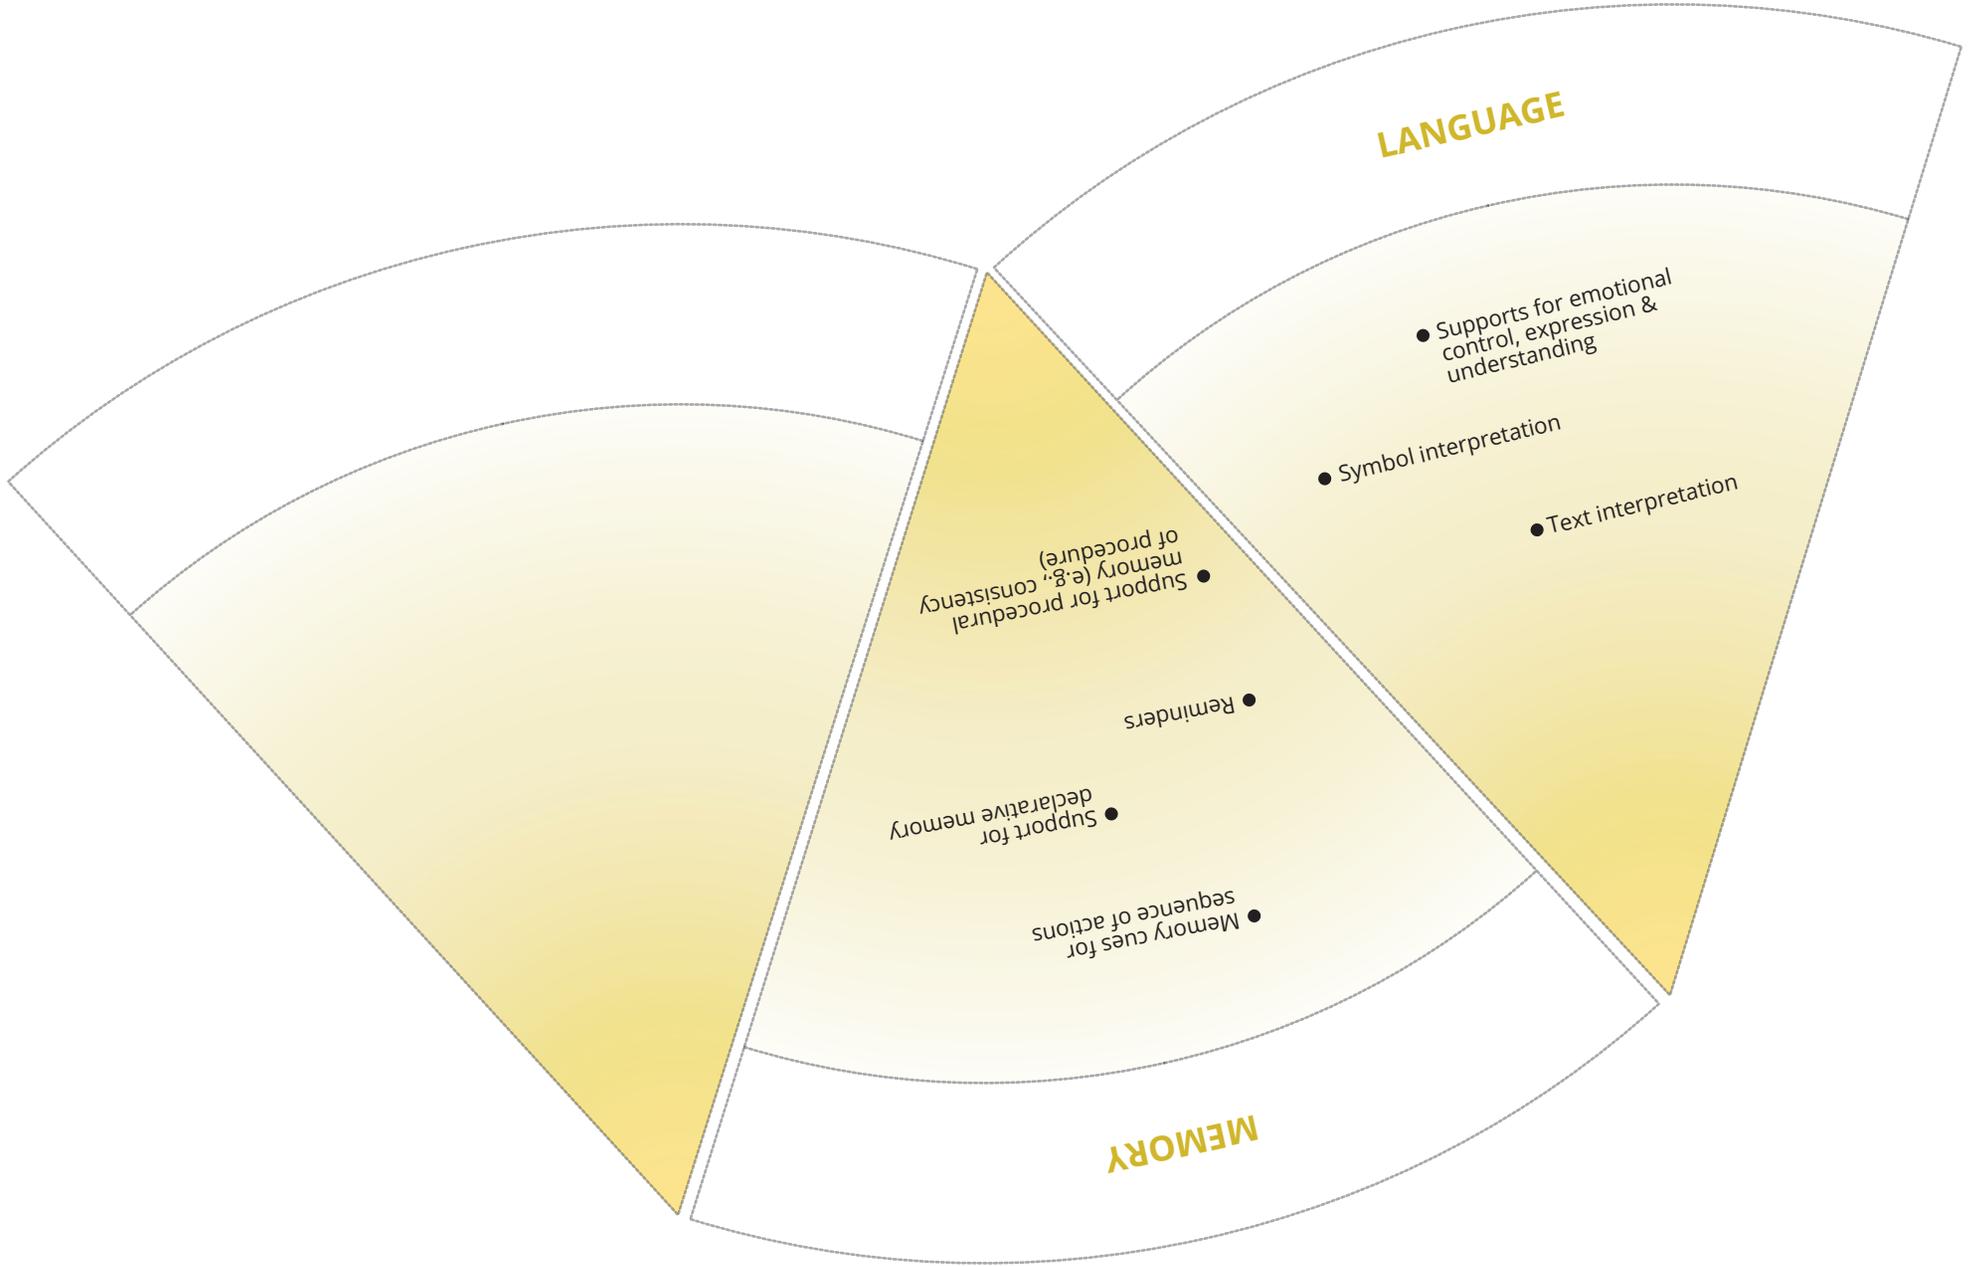

- Personalized audio background
- Figure-ground supports (e.g., simplified or emphasized)
- Personalized visual background

## SPEED OF REASONING

- More time or no time limit
- Logic tracking support

## PROBLEM SOLVING

- Decision supports
- Personalized mental models
- Navigation supports
- Evaluation tools
- Research tools
- Error management supports

## LANGUAGE

- Supports for emotional control, expression & understanding
- Symbol interpretation
- Text interpretation

## MEMORY

- Memory cues for sequence of actions
- Support for declarative memory
- Reminders
- Support for procedural memory (e.g., consistency of procedure)
